The Gear You'll Cheer

You're having a baby! Cue the confetti—and grab that scanner. To help shortlist your registry selections, we've searched myriad options for your munchkin to bring you the very best.

BEING PREGNANT MEANS you get to go on one big shopping spree (happy face), but pecking your way through shelves brimming with loads of baby gear can be majorly overwhelming (sad face). Here at *Fit Pregnancy* we know there's a real bonanza of choices, so we've scouted the greatest finds for you—our beloved mamas-to-be. Banish the idea of Saturdays spent at a big-box superstore having a meltdown in aisle 10 because you're not sure which car seat is safest (we've got that covered on pg. 70), or what kind of breast pump you'll need (we answered that, too, pg. 89). Pour the mocktails and let's go shopping!

TABLE OF CONTENTS

PLAYTIME

Toys, Bouncy seats, Play
yards, Activity seats

P. 100

BED & BATH

Tubs, Cribs, Gliders, Nursery
accessories, Bassinets

CONVERTIBLE SEATS

STAYING POWER

You may never see the car seat aisle again after purchasing the **Diono RadianRXT**. It converts from a rear- to forward-facing seat and later to a booster, and it boasts a full steel frame and aluminum reinforced sides for top-notch safety, along with 12 adjustable height positions. Rear-facing 5 to 45 pounds; forward-facing 20 to 80 pounds; booster up to 120 pounds. (\$340, buybuybaby.com)
Perfect if: You like to jet—the travel-friendly seat folds flat.

PRESS PLAY

Use your smartphone to scan a code on the side of the **Britax BOULEVARD** to access helpful online videos for proper installation. Another cool feature: energy-absorbing webbing to slow forward movement in an accident. Rear-facing 5 to 40 pounds; forward-facing up to 65 pounds. (\$320, britaxusa.com)

SAFETY FIRST

Now in leather, the **Clek Foonf** reduces the force of a head-on collision on a forward-facing baby by up to 40 percent using the same technology as your car. A narrow footprint means you can fit up to three seats in a row as your brood grows. Rear-facing 14 to 40 pounds; forward-facing 22 to 65 pounds. (\$800, shop.clekinc.com)

CLEAN DREAM

The **Chicco NextFit Zip's** padded seat is machine-washable and zips out for easy cleaning. Trust us, this will save you from afternoons spent scrubbing away smashed-in backseat snacks. Rear-facing 5 to 40 pounds; forward-facing 22 to 65 pounds. (\$329, chiccousa.com)
Perfect if: You're a neat freak.

COMFORT ZONE

The lounge-worthy **RECARO Performance RIDE** has memory foam for a cushy commute. And the seat's side-impact protection safeguards a child's five most vulnerable areas—head, neck, face, torso and pelvis—in the event of a crash. Rear-facing 5 to 40 pounds; forward-facing 20 to 65 pounds. (\$300, recaropromotion.com)
